

ES

Con el esmalte pulido se obtienen dos terminaciones en una sola aplicación, el mate satinado y el brillo en el caso de pulirse, Ventajas que la producción es la misma por lo que no existen variaciones del mate al pulido brillo.

EN

With polished enamel, two finishes are obtained in a single application, satin matte and gloss in the case of polishing. This comes with the advantage that there won't be variations between matt and polished as they come from the same process.

FR

Avec l'émail poli, deux finitions sont obtenues en une seule application, le satiné mat et le brillant dans le cas du polissage, avantages que la production est la même donc il n'y a pas de variations du brillant mat au brillant poli.

DE

Mit der polierten Emaille werden in einer einzigen Anwendung zwei Oberflächen erzielt: die seidenmatte und die Glanz beim Polieren. Der Vorteil besteht darin, dass die Produktion gleich ist und es daher keine Abweichungen von mattem zu poliertem Glanz gibt.
